

MEAD CON **Environmental Policy**

Mead Con is committed in principle and practice to the protection of the environment. We maintain environmental responsibility in our activities by:

- Preventing pollution to soil, air and water;
- Preventing damage to flora and fauna;
- Conserving materials and energy;
- Recycling of materials;
- Minimisation and correct disposal of waste.

We achieve this by:

- Developing environmentally sound construction practices and education programs;
- Ensuring that the requirement for environmental responsibility is integrated into decision making and considered in assessment of performance;
- Being alert to technical advances that may improve environmental performance;
- Complying with legal requirements and adopting higher standards where considered necessary.

DATED: 01-10-2010

MEAD CON Representative:

A handwritten signature in black ink, appearing to read "Tim Mead", written over a horizontal line.

Tim Mead
Managing Director
