Mead Con

89 Devonport Road

Quoiba TAS 7310

Client Testimonial

Project: Top Centre Laundry, Goodwood – Laundry Extension

I have collaborated with the team at Mead Con for over a decade and over this prolonged period of time, they have completed 5 major projects, and numerous minor projects and maintenance statewide at several Top Centre Laundry facilities.

One of the main reasons in why we choose Mead Con as a Builder is because we have seen the investment they put into their people to create, develop and build builders. This is not just from one project to the next – it is evident across the entire business model that trust and sustainability exists to nurture these relationships.

From a core perspective, Mead Con has been exceptional in providing us with a partnership that has allowed our entire team to mature and our business to grow. Their build quality, eye for meticulous detail and flexibility has resulted in top quality infrastructure that has allowed our business to grow.

The importance of the building journey cannot be understated and that is something Mead Con excel at communicating with clients. I could not be happier to support Mead Con's entry into the Master Builders Australia National Building Excellence Award.
